Multi Function Button (MFB)

Owner's Guide

MBS11305

v0119

Button Functions

Power on: To turn on the headset press in the MFB for 2 seconds, you will hear a "power on" voice alert and blue LED will be lit.

NOTE, If you have previously paired this headset a voice prompt will then say "connected".

Pairing: To pair with a comparable Bluetooth device, press and hold MFB for 4 seconds. A voice will alert will say "power on" then "pairing" and the LED will flash red/blue. Choose MBS11301 or MBS11302 on your device, a voice alert will then say "connected". (0000 is the passcode if the device asks for one)

Power off: To turn off the headset press in the MFB for 2 seconds, red LED will flash, and a voice will alert you that it is powering off.

Accept incoming call: press MFB button once

Ending a call: press MFB button once.

To refuse the incoming call: Press MFB button for 3 seconds.

To redial the last phone number called: Double press on MFB.

To raise volume: press + button once.

To lower volume: press - button once.

To skip to next song: press and hold + button.

To rewind to the beginning of the current song: press and hold the - button. Pressing and holding the - button immediately again will skip to the previous song played.

To pause the current song: press the MFB button once, press once again to resume.

To switch a cell phone call audio from the MBS11305 to the cell phone during a call: Press downward the volume key for 3 seconds till a beep is heard, the audio is now on the cell phone. The same procedure will switch the audio back to the MBS11305 headset.

Two-in one connection ways:

- Turn off the headset and turn off the Bluetooth function of the first cell phone after the first cell phone is connected and paired with Bluetooth headset.
- Turn on Bluetooth headset and pair and connect it with second cell phone under the pair status. Turn on the Bluetooth function of the first cell phone and connect again after finishing pair.

Battery indicator: In standby mode, double-click the volume down key, voice prompts for the battery power.

LED Indicator Status

Power on: Blue light blinking.

Pairing: Red/blue alternate.

Pairing successful: Blue light flashing.

Power off: Red light flashes, then off.

Charging: Red light on.

Fully charged: Blue light on.
